

I am opposed to the proposal to expand the LPFM into the current FM translator service. K-LOVE is the only station we listen to that provides an unbiased look at the world through Christian eyes.

There services are vital in todays society when other stations either do not or will not provide unbiased views of the world. So much of todays society revolves around music and songs which do not promote strong family values. Instead, they promote violence, racism, hate and non-social behavior.

If the FCC expands LPFM into the FM translator service, the loss of K-LOVE will be irreplaceable and a loss to the entire area.
